DETAILED ACTION

The applicants' response, which included cancellation of claims 5-8 filed 9/20/2007 under 37 CFR 1.116 in reply to the final rejection has been entered. Upon further consideration, the finality of the previous office action is hereby withdrawn to apply new grounds of rejections to currently pending claims 1-4 and 9-11.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 and 9-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. Recitation of a proviso to exclude generically certain compounds and then reciting the a genus in B choice in claim 1 renders claim 1 and its dependent claims 2-4 and 9-11 indefinite as it is not clear what to include or exclude from the compound of formula I. Note for example, the proviso excludes R¹ as alkyl-piperazine with Het1 is formula (6) and Het2 is pyridyl. But choice B includes N-methyl piperazinyl as R¹ choice and with Het1 is formula (6) and Het2 is pyridyl. The same is true for various species embraced in claim 3.

2. Claim 3 is indefinite as it is not clear what is structural make-up of the first species. Note the said species has "-3-4-" and it is not possible to draw a structure for this species. Efforts were made to look at all the species of claim 3. Applicants are urged carefully review these species to avoid any such omission or error.

Art Unit: 1624

3. Claim 4 is indefinite as it lacks "pharmaceutically acceptable carrier". As recited, based on the comprising language, it can include a composition containing the compound of formula I as active ingredient and various other active ingredient, which are not disclosed.
